Subject index

Anal canal
Intra-anal application of L-erythro methoxamine gel increases anal resting pressure in patients with incontinence, 1155

Anatomy
Histological identification of fascial structures posterolateral to the rectum, 620

Aneurysm
Differences between women and men in surgical treatment and case fatality rates for ruptured aortic abdominal aneurysm in England, 1096
Epidemiological study of the relationship between volume and outcome after abdominal aortic aneurysm surgery in the UK from 2000 to 2005, 441
Fifteen-year follow-up of a randomized clinical trial of ultrasonographic screening for abdominal aortic aneurysms, 696
Final 12-year follow-up of Surgery *versus* Surveillance in the UK Small Aneurysm Trial, 702
Impact of renal dysfunction on operative mortality following endovascular abdominal aortic aneurysm surgery, 174
Influence of sex on expansion rate of abdominal aortic aneurysms, 310
Meta-analysis and systematic review of the relationship between volume and outcome in abdominal aortic aneurysm surgery, 395
Mid-term survival after abdominal aortic aneurysm surgery predicted by cardiopulmonary exercise testing, 966
Nationwide study of the outcome of popliteal artery aneurysms treated surgically, 970
Outcome following bypass, and proximal and distal ligation of popliteal aneurysms, 179
Patient fitness and survival after abdominal aortic aneurysm repair in patients from the UK EVAR trials, 709
Priorities in the management of abdominal aortic aneurysm, 653
Randomized clinical trial comparing the effects on renal dysfunction of hydroxyethyl starch or gelatine during aortic aneurysm surgery, 427
VBOHM, a data economic model for predicting the outcome after open abdominal aortic aneurysm surgery, 717

Anus
Ileal pouch–anal anastomosis, 812
Intra-anal application of L-erythro methoxamine gel increases anal resting pressure in patients with incontinence, 1155
PTQ™ implants in the treatment of faecal soiling, 222
Randomized clinical trial comparing botulinum toxin injections with 0·2 per cent nitroglycerin ointment for chronic anal fissure, 162
Relaxation of the isolated human internal anal sphincter by sildenafil, 894

Aorta
Differences between women and men in surgical treatment and case fatality rates for ruptured aortic abdominal aneurysm in England, 1096
Endovascular treatment of traumatic rupture of the thoracic aorta, 525
Epidemiological study of the relationship between volume and outcome after abdominal aortic aneurysm surgery in the UK from 2000 to 2005, 441
Fifteen-year follow-up of a randomized clinical trial of ultrasonographic screening for abdominal aortic aneurysms, 696

Randomized clinical trial comparing the effects on renal dysfunction of hydroxyethyl starch or gelatine during aortic aneurysm surgery, 427
VBOHM, a data economic model for predicting the outcome after open abdominal aortic aneurysm surgery, 717

Apoptosis
Leptin acts as a mitogenic and antiapoptotic factor for colonic cancer cells, 346

Appendix
Non-patient factors related to rates of ruptured appendicitis, 214

Artery
High incidence of vascular reconstructions in socioeconomically deprived areas of an urban Swedish population, 183
Life-saving therapy for haemorrhaging liver adenomas using selective arterial embolization, 1249
Nationwide study of the outcome of popliteal artery aneurysms treated surgically, 970
Urgent carotid surgery, 921

Audit
An audit of the management of patients with acute pancreatitis against national standards of practice, 844

Axilla
Axillary staging during surgery for breast cancer, 304

Copyright © 2007 British Journal of Surgery Society Ltd
Published by John Wiley & Sons Ltd

Venous changes and lymphoedema 4 years after axillary surgery for breast cancer, 833

Bile duct
Intrahepatic cholangiojejunostomy following hepatobiliary resection, 70
Optimizing the critical view of safety in laparoscopic cholecystectomy by clipping and transecting the cystic artery before the cystic duct, 473
Surgical treatment and outcome of iatrogenic bile duct lesions after cholecystectomy and the impact of different clinical classification systems, 1119
Trends in the surgical management of Klatskin tumours, 393

Biopsy
Excision biopsy of breast lesions changes the pattern of lymphatic drainage, 1088
Multivariable analysis comparing outcome after sentinel lymph node biopsy or therapeutic lymph node dissection in patients with melanoma, 1293
Risk of invasion and axillary lymph node metastasis in ductal carcinoma *in situ* diagnosed by core-needle biopsy, 952
Second axillary sentinel node biopsy for ipsilateral breast tumour recurrence, 1216
Sentinel node biopsy for breast cancer larger than 3 cm in diameter, 948

Blood
A risk score for predicting perioperative blood transfusion in liver surgery, 860
Bleeding complications in skin cancer surgery are associated with warfarin but not aspirin therapy, 1356
Isolated tumour cells in blood and E-cadherin expression in oesophageal squamous cell cancer, 984
Platelet function and antiplatelet therapy, 683

Breast
Excision biopsy of breast lesions changes the pattern of lymphatic drainage, 1088

Breast – cancer
Axillary staging during surgery for breast cancer, 304
Comparison of breast cancer mortality rates with those of ovarian and colorectal carcinoma, 957
Neoadjuvant chemotherapy for operable breast cancer, 1189
Older women with operable breast cancer are less likely to have surgery, 1209
Prevention of venous thromboembolism in surgical patients with breast cancer, 412
Risk of invasion and axillary lymph node metastasis in ductal carcinoma *in situ* diagnosed by core-needle biopsy, 952
Second axillary sentinel node biopsy for ipsilateral breast tumour recurrence, 1216
Sentinel node biopsy for breast cancer larger than 3 cm in diameter, 948
Venous changes and lymphoedema 4 years after axillary surgery for breast cancer, 833

Breast – reconstruction/plastics
Late results of skin-sparing mastectomy followed by immediate breast reconstruction, 1220

Carcinoma
Comparison of breast cancer mortality rates with those of ovarian and colorectal carcinoma, 957
Gastric perforation during endoscopic resection for gastric carcinoma and the risk of peritoneal dissemination, 992
MicroRNAs and cancer, 23
Neoadjuvant therapy for pancreatic cancer, 261
Resection of soft tissue sarcoma of the lower limb after evaluation of vascular invasion with intraoperative intravascular sonography, 168
Retroperitoneal sarcoma, 1057
Tailoring treatments for curable gastric cancer, 263
Trends in the surgical management of Klatskin tumours, 393

Colon
Mesenteric transection decreases expression of interstitial cells of Cajal in an experimental model, 483
Optical adjuncts for enhanced colonoscopic diagnosis, 6
Prospective analysis of percutaneous endoscopic colostomy at a tertiary referral centre, 1415

Colon – malignant
Colon cancer management and outcome in relation to individual hospitals in a defined population, 491
Leptin acts as a mitogenic and antiapoptotic factor for colonic cancer cells, 346

Colon – miscellaneous
Female fertility and childbirth after ileal pouch–anal anastomosis for ulcerative colitis, 478
Frequency and impact of extracolonic findings detected at computed tomographic colonography in a symptomatic population, 355
Long-term function and manovolumetric characteristics after ileal pouch–anal anastomosis for ulcerative colitis, 327
Outcome of a conservative policy for managing acute sigmoid diverticulitis, 876
Results at up to 20 years after ileal pouch–anal anastomosis for chronic ulcerative colitis, 333
Systematic review of dysplasia after restorative proctocolectomy for ulcerative colitis, 534

Colon – surgery
Early introduction of laparoscopic sigmoid colectomy during residency, 634
Ileocolic anastomosis, 1447
Inspired supplemental oxygen reduces markers of oxidative stress during elective colon surgery, 475
Laparoscopic surgery impairs tissue oxygen tension more than open surgery, 362
Multicentre randomized clinical trial of mechanical bowel preparation in elective colonic resection, 689
Randomized clinical trial of effect of synbiotics, neomycin and mechanical bowel preparation on intestinal barrier function in patients undergoing colectomy, 546
Readmission rates after a planned hospital stay of 2 *versus* 3 days in fast-track colonic surgery, 890
Systematic evaluation of surgical strategies for acute malignant left-sided colonic obstruction, 1451
